Safety Precautions

CAUTION

RISK OF ELECTRIC SHOCK

DO NOT OPEN

WARNING: To reduce the risk of electric shock, do not remove cover or back. No user-serviceable parts inside. Refer servicing to qualified service personnel.

 The lightning flash with arrowhead within a triangle is intended to tell the user that parts inside the product are a risk of electric shock to persons.

 The exclamation point within a triangle is intended to tell the user that important operating and servicing instructions are in the papers with the appliance.

Note to CATV System Installer

This reminder is provided to direct the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

Secure Ventilation

Slots and openings in the cabinet and the back or bottom are provided for ventilation, and to ensure reliable operation of the LCD TV and to protect it from overheating. These openings must not be blocked or covered. There should be at least 10 cm of space from these openings. The openings should never be blocked by placing the LCD TV on a bed, sofa, rug or other similar surface. This LCD TV should not be placed in a built-in installation such as a bookcase unless proper ventilation is provided.

Important Safety Instructions

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments / accessories specified by the manufacturer.
- 12) Use only with the cart, stand, tripod, bracket or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 15) Operate only from the type of power source indicated on the marking label. If you are not sure of the type of power supplied to your home consult your television dealer or local power company.
- 16) Follow all warnings and instructions marked on the LCD TV.
- 17) Never push objects of any kind into this LCD TV through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the LCD TV.
- 18) If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges. In the U.S. Section 810-21 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

- 19) An outside antenna system should not be located in the vicinity of overhead power lines, other electric light, power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
- 20) Unplug this LCD TV from the wall outlet and refer servicing to qualified service personnel under the following conditions:
 - a. When the power cord or plug is damaged or frayed.
 - b. If liquid has been spilled into the LCD TV.
 - c. If the LCD TV has been exposed to rain or water.
 - d. If the LCD TV does not operate normally by following the operating instructions.

Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the LCD TV to normal operation.
 - e. If the LCD TV has been dropped or the cabinet has been damaged.
 - f. When the LCD TV exhibits a distinct change in performance - this indicates a need for service.
- 21) When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer that have the same characteristics as the original parts. Unauthorized substitutions may result in fire, electric shock, or other hazards.
- 22) **WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN, MOISTURE, DRIPPING OR SPLASHING. DO NOT PLACE LIQUID CONTAINERS (FLOWER VASES, CUPS, COSMETICS, ETC.) ABOVE THE SET (INCLUDING ON SHELVES ABOVE, ETC.).**
- 23) **WARNING: SMALL PARTS CAN PRESENT CHOKING HAZARD IF ACCIDENTALLY SWALLOWED. KEEP SMALL PARTS AWAY FROM YOUNG CHILDREN. DISCARD UNNEEDED SMALL PARTS AND OTHER OBJECTS, INCLUDING PACKAGING MATERIALS AND PLASTIC BAGS/SHEETS TO PREVENT THEM FROM BEING PLAYED WITH BY YOUNG CHILDREN, CREATING THE POTENTIAL RISK OF SUFFOCATION.**
- 24) **CAUTION: TO PREVENT ELECTRIC SHOCK, DO NOT USE THIS PLUG WITH A RECEPTACLE OR OTHER OUTLET UNLESS THE BLADES CAN BE FULLY INSERTED TO PREVENT BLADE EXPOSURE.**
- 25) **CAUTION: USE WITH OTHER STAND MAY RESULT IN INSTABILITY POSSIBLY CAUSING INJURY.**
- 26) **CAUTION: DANGER OF EXPLOSION IF BATTERY IS INCORRECTLY REPLACED. REPLACE ONLY WITH THE SAME OR EQUIVALENT TYPE.**
- 27) **CAUTION: This LCD TV is for use only with the following optional accessory. Use with any other type of optional accessories may cause instability which could result in the possibility of injury.** (All of the following accessories are manufactured by Panasonic Corporation)
 - Wall-hanging bracket: TY-WK3L2RW

Always be sure to ask a qualified technician to carry out set-up.

Optional Accessory

- Wall-hanging bracket**
- TY-WK3L2RW

Please contact your nearest Panasonic dealer to purchase the recommended wall-hanging bracket. For additional details, please refer to the wall-hanging bracket installation manual.

Installing the remote's batteries

1

2

Note the correct polarity (+ or -).

Caution

- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or break batteries.

Attaching the pedestal to TV

- Fix securely with assembly screws (A). (Total 4 screws)
- Tighten screws firmly.

WARNING

- Always be sure to ask a qualified technician to carry out set-up. Incorrect fitting may cause equipment to fall, resulting in injury and product damage.
- Do not disassemble or modify the pedestal.**
- Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution

- Do not use any other TV and displays.**
- Otherwise the TV may fall over and become damaged, and personal injury may result.
- Do not use the pedestal if it becomes warped or physically damaged.**
- If you use the pedestal when it is physically damaged, personal injury may result. Contact your nearest Panasonic Dealer immediately.
- During set-up, make sure that all screws are securely tightened.**
- If sufficient care is not taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

Reference of connection

Antenna terminal

- Firmly tighten by hand.

Pin terminals

- Match colors of plugs and terminals.
- Insert firmly.

HDMI terminal

- Insert firmly.

Basic Connection

Example 1 Connecting Antenna (To watch TV)

Example 2 Connecting DVD recorder (VCR) (To record/playback)

To connect the antenna terminal and Cable Box

To connect the antenna terminal and DVD recorder or VCR

Note

- Not all cables and external equipment shown in this book are supplied with the TV.
- For more details on the external equipment's connections, please refer to the operating manuals for the equipment.
- ATSC is not available except in U.S.A., Canada, and/or Mexico.

Basic Connection (Continued)

Example 3 Connecting DVD recorder (VCR) and satellite receiver

To connect the antenna terminal and Satellite Receiver and DVD recorder or VCR

Note

- For details of external equipment connections, please refer to the operating manuals for the equipment.

AV cable connections

(A) To use HDMI terminals

- Connecting to the HDMI terminals will enable you to enjoy high-definition digital images and high-quality sound.
- The HDMI connection is required for a 1080p signal.
- For "VIERA Link™ connections", please refer to p. 29.

(B) To use COMPONENT terminals

- Recorders may also be connected to COMPOSITE or S VIDEO terminals. (see below)

(C) To use COMPOSITE terminals

Note

- Some programs contain a copyright protection signal to prevent recording.
- When the copyright protection program is displayed, do not connect the other TV monitor through a VCR. Video signals fed through VCRs may be affected by copyright protection systems and the picture will be distorted on the other TV monitor.
- For more details on the external equipment's connections, please refer to the operating manuals of this equipment.

Identifying Controls

TV controls/indicators

Front of the TV

Remote control sensor
Within about 23 feet (7 meters) in front of the TV set.

Note

- The TV consumes a limited amount of power as long as the power cord is inserted into the wall outlet.
- Do not place any objects between the TV remote control sensor and remote control.

Remote control

First Time Setup

“First time setup” is displayed only when the TV is turned on for the first time after the power cord is inserted into a wall outlet and when “Auto power on” (p. 26-27) is set to “No”.

* This setting will be skipped next time if you select “Home”.

1 Select your language

2 Be sure to select “Home”

- Please confirm your selection (Home) before pressing OK button.

■ If you select “Store” by mistake in 2, confirmation screen will be displayed.

- Select “No” and return to previous screen 2.
- If you select “Yes”, Screen enters store demonstration mode.

To display the “Please select your viewing environment” screen again as shown above and select “Home”, do one of the following:

- Press and hold down the side POWER button.
- Unplug the TV and plug it again.

2 Adjust the clock

Year: Select the year
Month: Select the month
Day: Select the day
Hour: Adjust the hour
Minute: Adjust the minute

■ Press to exit from a menu screen

■ Press to return to the previous screen

First Time Setup (Continued)

3

Auto channel setup

① Select "ANT/Cable setup"

② Select "ANT in"

ANT in
 Cable: Cable TV
 Antenna: Antenna
 Not used: Skip TV tuning → go to ④

Select "Not used" when no wire is connected to the "Antenna/Cable" terminal.
 ● Typical when Cable/Satellite box is connected to a TV input.
 ● Prevents accidental tuning to an unavailable signal.

③ Select "Auto program"

④ Select scanning mode (ALL channels/Analog only/Digital only)

Start scanning the channels
 ● Available channels (analog/digital) are automatically set.

All channels: Scans digital and analog channels
 Analog only: Scans Analog channels only
 Digital only: Scans Digital channels only

⑤ Confirm registered channels

● If OK is not pressed after selecting "Apply", the channels will not be saved. The channel will be saved when no operation is performed for 60 seconds and the "Manual program" menu will also exit automatically.
 ● If you perform scanning more than twice, previously saved channels are erased.

4

Set the Input labels

Label: [BLANK] SKIP/VCR/DVD/
 CABLE/SATELLITE/DVR/GAME/
 AUX/RECEIVER/COMPUTER/
 Blu-ray/CAMERA/DVD REC/
 HOME THTR/MONITOR/MEDIA
 CTR/MEDIA EXT/OTHER

Switches Input mode alphabet to numeric

■ Press to exit from a menu screen
 EXIT

Note
 ● To change setting (Language/Clock/ Auto program/Input labels) later, go to Menu screen (p. 24)
 ● About broadcasting systems
Analog (NTSC): Conventional broadcasting
Digital (ATSC): New programming that allows you to view more channels featuring high-quality video and sound
 ● ATSC is not available except in U.S.A., Canada, and/or Mexico.

Watching TV

Connect the TV to a cable box/cable, set-top-box, satellite box or antenna cable (p. 8-11)

To watch TV and other functions

1

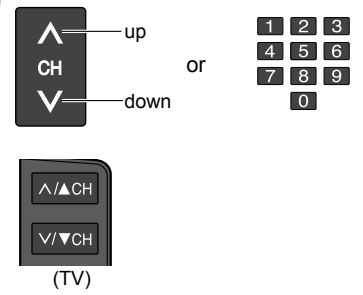

Turn power on

Note
 ● If the mode is not TV, press INPUT and select TV. (p. 20)

2

Select a channel number

■ To directly input the digital channel number
 When tuning to a digital channel, press the button to enter the minor number in a compound channel number.
 example: CH15-1: 1 5 - 1

Note
 ● Reselect "Cable" or "Antenna" in "ANT in" of "ANT/Cable setup" to switch the signal reception between cable TV and antenna. (p. 14, 37)
 ● The channel number and volume level remain the same even after the TV is turned off.

Listen with SAP (Secondary Audio Program)

SAP

● **Digital mode**
 Press SAP to select the next audio track (if available) when receiving a digital channel.
 Audio track 1 of 2 (English)

● **Analog mode**
 Press SAP to select the desired audio mode.
 • Each press of SAP will change the audio mode. (Stereo/SAP/Mono)

Using VIERA TOOLS

VIERA TOOLS are the easy way to access high use menu items. They are displayed as shortcut icons on the TV screen.

Unlike a conventional menu, you can enjoy using, playing or setting a function quickly.

1 Display VIERA TOOLS

2 Select the item

	Displayed "VIERA Link control" menu (p. 32-33)
	Start Slideshow (p. 18-19)
	Displayed "Game mode setting" menu. Select the Picture mode setting. (Game/Standard (Vivid/Cinema/Custom))
	Displayed "ECO/energy saving" (p. 26)

■ Press to exit from a menu screen

■ Press to return to the previous screen

①

Viewing
● Using VIERA TOOLS
● Watching TV

Viewing from an SD Card

You can view photos taken with a digital camera or digital video camera and saved on an SD card.
(Media other than SD Cards may not be reproduced properly.)

Photo viewer

1

Insert the SD card

* This setting will be skipped next time unless you select "Set later".
Set "SD card setting" and select "Play SD card now"
● "SD card setting" will be displayed automatically each time an SD card is inserted for the first time.

① select **Slideshow:** A Slideshow will start automatically next time.
② change **Thumbnail:** The Photo viewer menu will be displayed automatically next time.
③ set **Set later:** "SD card setting" menu will be displayed repeatedly. The data can be played manually.

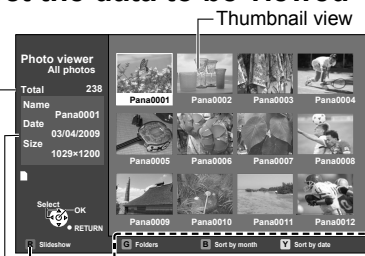

■ Manual operation ("Play SD card automatically" is "Off")

Display "Photo viewer" Start Slideshow

2

Select the data to be viewed

To Slideshow
Selected picture information is displayed.
Total number of images.

Note

● Depending on the JPEG format, "Information" contents may not be displayed correctly. Refer to p. 44 (Data format for SD card browsing) for details.

3

View

Displays one at a time

Single photo view

Slideshow

■ Press to exit from a menu screen

■ Press to return to the previous screen

VIERA IMAGE VIEWER

The VIERA Image Viewer is a function that lets you easily view still and motion images on a VIERA television by simply inserting an SD card into the VIERA SD card slot.

SD Card

● Insert the card

● Remove the card

● Compliant card type (maximum capacity): SDHC Card (16 GB), SD Card (2 GB), miniSD Card (1 GB) (requiring miniSD Card adapter)
● For cautions and details on SD Cards (p. 44)

Sort

■ To sort by Folder, month or date

8 PC	

1 2 3
4 5 6
7 8 9
0

OR

①select
②enter

Press corresponding NUMBER button on the remote control to select the input of your choice.

Select the input of your choice, then press OK.

 - During the selection, if no action is taken for several seconds, the "Input select" menu disappears.
 - The terminal and label of the connected equipment are displayed. To label each of the inputs, please refer to p. 39.

(example)

Terminal Label
(example)

Note

 - The input label will be displayed on "Input select" screen if Input label is set on p. 39.
 - For side input terminals (HDMI 3/Video 2), "GAME" input label is set as default. (Picture mode is set to "Game", refer to p. 45.)
 - For more details for picture mode setting, refer to p. 45. For Input label, refer to p. 39.
- Operate the connected equipment using the remote control supplied with the equipment**

Note

 - For details, see the manual of the connected equipment.

■ To return to TV

VIERA Link™ Setting

If you connect equipment that has the "HDAVI Control" function to a TV using an HDMI cable, you will find it easier to use. Please refer to p. 28-33. Before using these functions, you need to set "VIERA Link" setting to "On" as shown below.

- Display menu**

- Select "Setup"**

①select
②next
- Select "VIERA Link settings"**

①select
②next
- Select "VIERA Link"**

select

■ Press to exit from a menu screen
EXIT

■ Press to return to the previous screen
RETURN
- Select "On"**
(default is On)

change

Now you can set each "VIERA Link" function according to your preference (p. 30-33).

Note

 - If no HDMI equipment is connected or standard HDMI equipment (non- "VIERA Link") is used, set it to "Off".
 - For more details on the external equipment's connections, please refer to the operating manuals for the equipment.

Displaying PC Screen on TV

The screen of the PC connected to the unit can be displayed on the TV.
You can also listen to PC sound with the audio cable connected. To connect PC (p. 41)

■ **PC menu setting** (change as desired)
● Making settings → "How to Use Menu Functions" ① to ④ (p. 24)

Menu	Item	Adjustments/Configurations (options)
Picture	Reset to defaults	Resets PC adjust
	Sync	<ul style="list-style-type: none"> ● H & V: The H and V sync signals are input from the HD/VD connector. (p. 46) ● On green: Uses a synchronized signal on the Video G signal, which is input from the G connector. (p. 46)
	Dot clock	Alleviates the problem if a picture appears to be vertically-striped, flickers partially or is blurred.
	H-position	Adjusts the horizontal position. 
	V-position	Adjusts the vertical position. 
	Clock phase	Alleviates the problem if the whole picture appears to flicker or is blurred. First adjust the Dot Clock to get the best possible picture, then adjust the Clock Phase so that a clear picture appears. Note It may not be possible to display a clear picture due to poor input signals.
	Input resolution	Switches to wide display. <ul style="list-style-type: none"> ● Input signal switched from 640×480 to 800×480 ● Input signal switched from 1024×768 to 1280×768 or 1366×768
	H-frequency V-frequency	Displays the H (Horizontal)/V (Vertical) frequencies. <ul style="list-style-type: none"> ● Display range Horizontal: 15 - 110 kHz Vertical: 48 - 120 Hz

How to Use Menu Functions (picture, sound quality, etc.)

Advanced

VIERA Link™ “HDAVI Control™”*

Simultaneously control all Panasonic “HDAVI Control” equipped components using one button on the TV remote. Enjoy additional HDMI Inter-Operability with Panasonic products which have the “HDAVI Control” function. This TV supports “HDAVI Control 4” function. Connections to some Panasonic equipment (DVD recorder DIGA, HD Camcorder, Player theatre, RAM theater, Amplifier, etc.) with HDMI cables allow you to interface with them automatically.

Equipment with the “HDAVI Control” function enables the following operations:

Version	Operations
HDAVI Control or later	<ul style="list-style-type: none"> Automatic Input Switching (p. 31) Power on link (p. 31) Power off link (p. 31) Default speakers (p. 31) One-touch theater playback (p. 31) Speaker control (p. 33)
HDAVI Control 2 or later	<ul style="list-style-type: none"> VIERA Link control only with the TV’s remote control(P. 33) Auto power stand-by (for available equipment only) (p. 31) Direct TV recording (p. 33)
HDAVI Control 3 or later	<ul style="list-style-type: none"> Providing the setting information (p. 31) Automatic lip-sync function (p. 31)
HDAVI Control 4	<ul style="list-style-type: none"> Stand-by power save (with quick start mode) (p. 31)

■ **For the first time/When adding new equipment, reconnecting equipment or changing the setup after the connection, turn the equipment on and then switch the TV on. Set the input mode to HDMI1, HDMI2 or HDMI3 (p. 20), and make sure that the image is displayed correctly.**

VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed. Please refer to the individual manuals for other manufacturers’ equipment supporting the VIERA Link function.

■ HDMI cable

This function needs an HDMI compliant (fully wired) cable. Non-HDMI-compliant cables cannot be utilized. It is recommended that you use Panasonic’s HDMI cable. Recommended part number: RP-CDHF15 (4.9 ft/1.5 m), RP-CDHG15 (4.9 ft/1.5 m), RP-CDHF30 (9.8 ft/3.0 m), RP-CDHG30 (9.8 ft/3.0 m), RP-CDHG50 (16.4 ft/5.0 m)

* For more details on the external equipment’s connections, please refer to the operating manuals for the equipment.

VIERA Link™ Connections

Follow the connection diagrams below for HDAVI control of a single piece of AV equipment such as a DVD recorder (DIGA), RAM theater, or Player theater system. Refer to page 30-33 for Setup Menu settings and additional control information.

● Optional HDMI and/or optical cables are not included.

If connection (or setting) of equipment compatible with HDAVI control is changed, switch the power of this unit Off and On again while the power of all equipment is On (so that the unit can correctly recognize the connected equipment) and check that the DVD recorder (DIGA), RAM theater, and Player theater playback operate.

Note

● HDMI 1 is recommended.

When connecting to HDMI 2/HDMI 3, set the input mode to HDMI 2/HDMI 3 (p. 20) initially before connecting to HDMI 2/HDMI 3. After connection, confirm the HDMI control functions (p. 30-33).

■ Connecting this unit to a DVD recorder (DIGA), RAM theater, or Player theater

● For DVD recorder (DIGA): Connect with HDMI cable

● For RAM theater and Player theater:

Connect with the HDMI and audio cables.

If audio cable is not connected, you cannot listen to the TV program through the theater system.

■ Connecting this unit to a DVD recorder (DIGA) and AV amp

When using a “VIERA Link” audio-video amplifier and a compatible DVD recorder (DIGA) use a daisy chain connection as shown below.

- One AV amp and one DVD recorder (DIGA) can be operated with this unit.
- Be sure to connect the AV amp between this unit and the DVD recorder (DIGA).

■ Setting of this unit after connection

After making connections as shown above, set “VIERA Link” (under “VIERA Link settings”) to “On” using the Setup menu. (p. 21, 30-33).

Note

- Individual HDMI equipment may require additional menu settings specific to each model. Please refer to their respective operating instruction manuals.
- When audio from other equipment connected to this unit via HDMI is output using “DIGITAL AUDIO OUT” of this unit, the system switches to 2CH audio. (When connecting to an AV amp via HDMI, you can enjoy higher sound quality.)
- For details about HDMI cable for connecting Panasonic HD camcorder, read the manual for the equipment.

VIERA Link™ “HDAVI Control™”*

(Continued)

1 Display menu

2 Select “Setup”

3 Select “VIERA Link settings”

4 Select “VIERA Link”

5 Select “On”
(default is On)

6 Select settings

7 Set

■ Press to exit from a menu screen
EXIT

■ Press to return to the previous screen
RETURN

Automatic Input Switching

At the start of the DIGA, Player theater, or RAM theater playback, the TV’s input automatically switches to the input based on the playback equipment.

- For the RAM theater, the speakers automatically switch to the theater system.
If using the DIGA operation, the TV’s input automatically switches to the DIGA and DIGA menu is displayed.

Power on link

When “Yes” is selected (p. 27), TV is turned on automatically and switches to the appropriate HDMI input whenever VIERA Link compatible equipment is initially turned on and Play mode is selected.

Power off link

When “Yes” is selected (p. 27) and the TV is turned off, all connected VIERA Link compatible equipment is also automatically turned off.

- DIGA (Panasonic DVD Recorder) will not turn off if it is still in rec mode.
Caution: The TV remains on even if the VIERA Link compatible equipment is turned off.

Stand-by power save (for “HDAVI Control 4” (with quick start mode))

- Condition
Power off link: Yes, Stand-by power save: Yes
The equipment has “HDAVI Control 4 (with quick start mode)” connected with HDMI cable.
When TV is turned off, all connected VIERA Link compatible equipment is moved to ECO standby mode* automatically under above conditions.
* Minimum power consumption of standby condition for the equipment.

Auto power stand-by (for “HDAVI Control 2 or later”)

- Condition
Auto power stand-by: Yes,
The equipment has “HDAVI Control 2 or later” (for available equipment only) connected with HDMI cable.
[Examples of timing for operation]
• When the input is switched from HDMI.
• When the “Speaker output” is changed from “Home theater” to “TV”.

The connected VIERA Link compatible equipment will be turned off automatically when not in use.

Default speakers

“TV” is the default setting. To set the Home Theater system as default speakers, change the default speakers setting from “TV” to “Theater”.

One-touch theater playback

If the “ONE TOUCH PLAY” key is pressed on the remote control for Panasonic Home Theater system, the following sequence of operations is performed automatically.

- ① Home Theater power switches On, and playback begins.
- ② TV power switches On, and the playback screen is displayed.
- ③ Audio is muted on the TV and switches to the theater system.

The following information about the TV settings can be transmitted to each piece of equipment (Recorder/Home theater/Player) that has “HDAVI Control 3 or later” function connected to a TV with HDMI cable.

Transmittable data	Recorder	Home theater	Player
① On Screen Display Language setting (English/Español/Français)	○	○	○
② Panel Aspect Ratio (16:9 fixed)	○	○	○
③ Closed caption information (Mode/CC type/Digital setting)	○	---	---
④ Channel information (Input signal/Channel list/Caption information)	○	---	---

Note

- There is a possibility that all the GUI language information might be set from equipment that has HDMI CEC function connected to TV with HDMI cable. Depending on operating conditions or the specification for each piece of equipment the setting may or may not be applied.
- For more details on the external equipment’s operation, please refer to the operating manuals for the equipment.

[For Recorder]

- You cannot operate other functions while transmitting TV’s information above except Power On/Off key operation.
When you turn off this unit, the transmission will be interrupted (only when you are transmitting ④ Channel information).

Providing the setting information (for “HDAVI Control 3 or later”)

Automatic lip-sync function (for “HDAVI Control 3 or later”)

Minimizes lip-sync delays between the picture and audio when you connect to a Panasonic theater system or Amplifier.

VIERA Link™ “HDAVI Control™”

You can enjoy more convenient operation with the “HDAVI Control” function in the “VIERA Link” menu.

For more details on the “HDAVI Control” function, refer to p. 28

Speaker control

VIERA Link control only with the TV's remote control (for “HDAVI Control 2 or later”)

Direct TV recording (for “HDAVI Control 3 or later”)

(Continued)

You can select Home theater or TV speakers for audio output. Control theater speakers with the TV's remote control. This function is available only when Panasonic Amplifier or Player theater is connected.

■ **Home theater:** Adjustment for equipment

① Select “Speaker output”

② Select “Home theater” or “TV”

Volume up / down →

Mute →

- The sound of the TV is muted.
- When the equipment is turned off, the TV speakers take over.
- Selecting “Home theater” turns the equipment on automatically if it is in standby mode.

■ **TV:** The TV speakers are on.

In the VIERA Link menu, you can select HDMI connected equipment and access it quickly. Continue using your TV's remote control to operate the equipment, pointing it at the TV.

① Select “VIERA Link control”

② Select the equipment you want to access.
(Recorder/Home theater/Player/Camcorder/LUMIX)

You can select available items only.

- If there is more than one equipment item, a number after the name indicates the number of items. (e.g. Recorder 1/Recorder 2/Recorder 3)
- The number of equipment items that can be connected is three for recorders, and a total of three for Home theater/Player/Camcorder/LUMIX.

Note

- There is a limit to the number of HDMI connectors.

③ Operate the equipment with the TV's remote control, pointing it at the TV.

- To operate the equipment, read the manual of the equipment.

■ **Available TV's remote control buttons**

Whether an operation is available differs depending on the connected equipment.

	Move the cursor/Select		Play
	Set/Access		Stop
	Return to previous menu		Reverse/Forward
	Display the functions menu on the equipment		Skip Reverse/Forward
	Available when the purpose of the keys is displayed on screen		Pause
	Exit		Closed caption
	Channel Up/Down		SAP (Select Audio Mode)
	0-9		Select digital subchannel

Records the current program on the recorder immediately.

① Select “Record now”

② Select “Stop recording”, when you want to stop recording

- For optimal recording, the settings of the recorder might be required. For details, read the manual of the recorder.

- Recording will not stop automatically when the program is finished.

Lock

You can lock specified channels or shows to prevent children from watching objectionable content.

1 Display menu

2 Select "Lock"

 You will be asked to enter your password each time you display the Lock menu.

3 Input your 4-digit password
 A 4-digit code must be entered to view a blocked program or change rating settings.

- If it is your first time entering the password, enter the password twice in order to register it.

4 Select the Lock mode

Lock	Mode	Off
	Channel	Off
	Game	Off
	Program	Off
	Change password	

Off: Unlocks all the lock settings of "Channel", "Game" and "Program".
 All: Locks all the inputs regardless of the lock settings of "Channel", "Game" and "Program".
 Custom: Locks specified inputs of "Channel", "Game" and "Program".

5 Select the item

Lock	Mode	Custom
	Channel	Off
	Game	Off
	Program	Off
	Change password	

- "Channel", "Game" and "Program" are not accessible unless "Custom" is selected in "Mode".

6 Set

Caution
 ● Make a note of your password in case you forget it. (If you have forgotten your password, consult your local dealer.)

Note
 ● When you select a locked channel, a message will be displayed that allows you to view the channel if you input your password.

■ To select the channel or the rating of the program to be locked

Channel lock
 Select up to 7 (1-7) channels to be blocked. These channels will be blocked regardless of the program rating.
 ① Select "Mode" and set to "Custom"
 ② Select channel to lock.

- To lock/unlock all channels: Select "Mode" and set to "All" or "Off".
 All: Locks all channels
 Off: Unlocks all channels

Game lock
 Locks Channel 3, Channel 4 and external inputs.
 Select "Game" in ⑤ and set to "On".

On: Locks
 Off: Unlocks

Program lock
■ To set a rating level
 "V-chip" technology enables restricted shows to be locked according to TV ratings.
 ① Select "Mode" and set to "On".

② Select the rating category you wish to follow

③ Select the rating to be locked

Example of "MPAA" (U.S. movie ratings)

NR	No rating
G	General Audience: All ages admitted
PG	Parental Guidance Suggested
PG-13	Parents Strongly Cautioned: Inappropriate for children under 13
R	Restricted: Under 17 requires accompanying parent or adult guardian
NC-17	No one 17 and under admitted
X	Adults only

- To get more information (p. 42)

Change password
■ To change the password
 ① In ④, select "Change password" and press OK
 ② Input the new 4-digit password twice

Note

- This television is designed to support the "Downloadable U.S. Region Rating System" when available. (Available only in U.S.A.)
- The Off rating is independent of other ratings.
- When placing a lock on a specific-age-based-rating level, the Off rating and any other more restrictive ratings will also be blocked.

FV: Fantasy/Cartoon Violence. V: Violence S: Sex L: Offensive Language D: Dialogue with sexual content.

CANADIAN ENGLISH RATINGS (C. E. L. R.)

E	Exempt - Exempt programming includes: news, sports, documentaries and other information programming, talk shows, music videos, and variety programming.
C	Programming intended for children under age 8. No offensive language, nudity or sexual content.
C8+	Programming generally considered acceptable for children 8 years and over. No profanity, nudity or sexual content.
G	General programming, suitable for all audiences.
PG	Parental Guidance suggested. Some material may not be suitable for children.
14+	Programming contains themes or content which may not be suitable for viewers under the age of 14. Parents are strongly cautioned to exercise discretion in permitting viewing by pre-teens and early teens.
18+	18+ years old. Programming restricted to adults. Contains constant violence or scenes of extreme violence.

CANADIAN FRENCH RATINGS (C. F. L. R.)

E	Exempt - Exempt programming.
G	General - Programming intended for audience of all ages. Contains no violence, or the violence content is minimal or is depicted appropriately.
8 ans+	8+ General - Not recommended for young children. Programming intended for a broad audience but contains light or occasional violence. Adult supervision recommended.
13 ans+	Programming may not be suitable for children under the age of 13 - Contains either a few violent scenes or one or more sufficiently violent scenes to affect them. Adult supervision strongly suggested.
16 ans+	Programming may not be suitable for children under the age of 16 - Contains frequent scenes of violence or intense violence.
18 ans+	Programming restricted to adults. Contains constant violence or scenes of extreme violence.

Caution

- The V-Chip system that is used in this set is capable of blocking “NR” programs (non rated, not applicable and none) as per FCC Rules Section 15.120(e)(2). If the option of blocking “NR” programs is chosen “unexpected and possibly confusing results may occur, and you may not receive emergency bulletins or any of the following types of programming:”
 - Emergency Bulletins (Such as EAS messages, weather warnings and others)
 - Locally originated programming • News • Political • Public Service Announcements • Religious • Sports • Weather

Technical Information

Closed caption (CC)

- For viewing the CC of digital broadcasting, set the aspect to FULL (If viewing with H-FILL, JUST, ZOOM or 4:3; characters might be cut off).
- The CC can be displayed on the TV if the receiver (such as a set-top box or satellite receiver) has the CC set On using the Component or HDMI connection to the TV.
- If the CC is set to On on both the receiver and TV when the signal is 480i (except for the HDMI connection), the CC may overlap on the TV.
- If a digital program is being output in analog format, the CC data will also be output in analog format.
- If the recorder or output monitor is connected to the TV, the CC needs to be set up on the recorder or output monitor.

Aspect Ratio (FORMAT)

Press the FORMAT button to cycle through the aspect modes. This lets you choose the aspect depending on the format of the received signal and your preference. (p. 16)
(e.g.: in case of 4:3 image)

● FULL

Enlarges the 4:3 image horizontally to the screen's side edges. (Recommended for anamorphic picture)

● JUST

Stretches to justify the 4:3 image to the four corners of the screen. (Recommended for normal TV broadcast)

● H-FILL

Enlarges the 4:3 image horizontally to the screen's side edges. The side edges of the image are cut off.

● 4:3

Standard (Note that “Image retention” of the side bar may occur from displaying it for a long time.)

● ZOOM

Enlarges the 4:3 image to the entire screen. (Recommended for Letter Box)

Note

- 480i (4:3), 480i (16:9), 480p (4:3), 480p (16:9): FULL, JUST, 4:3 or ZOOM
- 1080p / 1080i / 720p: FULL, H-FILL, JUST, 4:3 or ZOOM

Zoom adjustments

Vertical image position and size can be adjusted in “ZOOM”.

- Select “Zoom adjustments” on the “Picture” menu. (p. 24-25)
- V-position: Vertical position adjustment
- V-size: Vertical size adjustment

- To reset the aspect ratio → (OK)

Technical Information (Continued)

Data format for SD Card browsing

Photo:	Still images recorded with digital still cameras compatible with JPEG files of DCF* and EXIF** standards
Data format:	Baseline JPEG (Sub-sampling: 4:4:4, 4:2:2 or 4:2:0)
Max. number of files:	9,999
Image resolution:	160 x 120 to 10,000,000

* DCF (Design rule for camera file system): A Japan Electronics and Information Technology Industries Association's standard
 ** EXIF (Exchangeable Image File Format)

Caution

- A JPEG image modified with a PC may not be displayed.
- Partly degraded files might be displayed at a reduced resolution.

Note

- Folder structure viewed in PC

- The folder and file names may be different depending on the digital camera used.
- For the suitable SD Memory Cards, please confirm the latest information on the following website.
<http://panasonic.jp/support/global/cs> (This site is in English only)

Cautions in handling SD Card:

- Do not remove the card while the unit is accessing data (this can damage card or unit).
- Do not touch the terminals on the back of the card.
- Do not subject the card to high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the unit. (Panasonic is not liable for any deterioration or damage of recorded data.)

SD Card warning messages

Message	Meaning
SD card slot is empty.	● The card is not inserted.
No photos	● The card has no data or this type of data is not supported.
Cannot read file	● The file is broken or unreadable. ● The TV does not support the format.

VIERA Link™ "HDAVI Control™"

HDMI connections to some Panasonic equipment allow you to interface automatically. (p. 28)

- This function may not work normally depending on the equipment condition.
- The equipment can be operated by other remote controls with this function on even if TV is in Standby mode.
- Image or sound may not be available for the first few seconds when the playback starts.
- Image or sound may not be available for the first few seconds when Input mode is switched.
- Volume function will be displayed when adjusting the volume of the equipment.
- If you connect the same kind of equipment at once (for example: one DIGA to HDMI 1 / another DIGA to HDMI 2), VIERA Link™ is available for the terminal with the smaller number.
- If you connect equipment that has "HDAVI Control 2 or later" function to the TV with HDMI cable, the sound from DIGITAL AUDIO OUT terminal can be output as multi channel surround.
- "HDAVI Control 4" is the newest standard (current as of December, 2008) for the HDAVI Control compatible equipment. This standard is compatible with the conventional HDAVI equipment.

HDMI connection

HDMI (high-definition multimedia interface) allows you to enjoy high-definition digital images and high-quality sound by connecting the TV unit and the devices.

HDMI-compatible equipment (*1) with an HDMI or DVI output terminal, such as a set-top box or a DVD player, can be connected to the HDMI connector using an HDMI compliant (fully wired) cable.

- HDMI is the world's first complete digital consumer AV interface complying with a non-compression standard.
- If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adapter cable (*2).
- When the DVI to HDMI adapter cable is used, connect the audio cable to the audio input terminal.
- Audio settings can be made on the "HDMI 1 in", "HDMI 2 in" or "HDMI 3 in" menu screen. (p. 24)
 Applicable audio signal sampling frequencies (L.PCM): 48 kHz, 44.1 kHz, 32 kHz
 (*1): The HDMI logo is displayed on an HDMI-compliant device.
 (*2): Enquire at your local digital equipment retailer shop.

Caution

- Use with a PC is not assumed.
- All signals are reformatted before being displayed on the screen.
- If the connected device has an aspect adjustment function, set the aspect ratio to "16:9".
- These HDMI connectors are "type A".
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- A device having no digital output terminal may be connected to the input terminal of either "COMPONENT", "S VIDEO", or "VIDEO" to receive analog signals.
- The HDMI input terminal can be used with only the following image signals: 480i, 480p, 720p, 1080i and 1080p. Match the output setting of the digital device.
- For details of the applicable HDMI signals, see p. 46.

DIGITAL AUDIO OUT terminals

You can enjoy your home theater by connecting a Dolby Digital (5.1 channel) decoder and "Multi Channel" amplifier to the DIGITAL AUDIO OUT terminals.

Caution

- Depending on your DVD player and DVD-Audio software the copyright protection function may operate and disable optical output.
- When an ATSC channel is selected, the output from the DIGITAL AUDIO OUT jack will be Dolby Digital. When an NTSC channel is selected, the output will be PCM.

Picture mode

- Vivid: Provides enhanced picture contrast and sharpness for viewing in a well-lit room.
- Standard: Recommended for normal viewing conditions with subdued room lighting.
- Cinema: For watching movies in a darkened room. It provides a soft, film-like picture.
- Game: For playing video game. This mode will be set automatically if "GAME" is selected from Input label setting (p. 39)
- Custom (Photo): Customizes each item according to your taste.
 Photo is displayed in JPEG menu.

Note

- Picture mode will be automatically set to "Standard" if you change the Input label from "GAME" to other labels.
- Picture mode will be automatically set to "Game" if you change from an Input label other than "GAME" to "GAME" label.

Technical Information (Continued)

H size

- Aspect Ratio: 4:3

- The width will be decreased on both sides to reduce noise.

- Aspect Ratio: FULL/JUST(H-FILL/ZOOM)

- The width will be increased on both sides to reduce noise.

See pages 24-25 for more information

Note

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.

PC Input Terminals Connection

- Computer signals which can be input are those with a horizontal scanning frequency of 15 to 110 kHz and vertical scanning frequency of 48 to 120 Hz. (However, the image will not be displayed properly if the signals exceed 1,200 lines.)
- Some PC models cannot be connected to the set.
- There is no need to use an adapter for computers with IBM PC/AT compatible D-sub 15P terminal.
- The maximum resolution: 1,280 × 1,024
- If the display resolution exceeds these maximums, it may not be possible to show fine detail with sufficient clarity.
- Signal Names for D-sub 15P Connector

Pin Layout for PC Input Terminal

Pin No.	Signal Name	Pin No.	Signal Name	Pin No.	Signal Name
①	R	⑥	GND (Ground)	⑪	NC (not connected)
②	G	⑦	GND (Ground)	⑫	NC
③	B	⑧	GND (Ground)	⑬	HD/SYNC
④	NC (not connected)	⑨	NC (not connected)	⑭	VD
⑤	GND (Ground)	⑩	GND (Ground)	⑮	NC

Care and Cleaning

First, unplug the Power cord plug from the wall outlet.

Display panel

The front of the display panel has been specially treated. Wipe the panel surface gently using only a cleaning cloth or a soft, lint-free cloth.

- If the surface is particularly dirty, soak a soft, lint-free cloth in diluted mild liquid dish soap (1 part mild liquid dish soap diluted by 100 times the amount of water) and then wring the cloth to remove excess liquid. Use this cloth to wipe the surface of the display panel, then wipe it evenly with a dry cloth of the same type until the surface is dry.
- Do not scratch or hit the surface of the panel with fingernails or other hard objects. Furthermore, avoid contact with volatile substances such as insect sprays, solvents, and thinner; otherwise, the quality of the surface may be adversely affected.

Cabinet

If the cabinet becomes dirty, wipe it with a soft, dry cloth.

- If the cabinet is particularly dirty, soak the cloth in a weak mild liquid dish soap and then wring the cloth dry. Use this cloth to wipe the cabinet and then wipe it dry with a dry cloth.
- Do not allow any mild liquid dish soap to come into direct contact with the surface of the LCD TV. If water droplets get inside the unit, operating problems may result.
- Avoid contact with volatile substances such as insect sprays, solvents, and thinner; otherwise, the quality of the cabinet surface may be adversely affected or the coating may peel off. Furthermore, do not leave it for long periods in contact with articles made from rubber or PVC.

Pedestal

- Cleaning

Wipe the surfaces with a soft, dry cloth. If the unit is particularly dirty, clean it using a cloth soaked with water to which a small amount of mild liquid dish soap has been added and then wipe with a dry cloth.

Do not use products such as solvents, thinner, or household wax for cleaning, as they can damage the surface coating. (If using a chemically-treated cloth, follow the instructions supplied with the cloth.)

- Do not attach sticky tape or labels, as they can make the surface of the pedestal dirty. Do not allow long-term contact with rubber, vinyl products, or the like. (Doing so will cause deterioration.)

Power cord plug

Wipe the plug with a dry cloth at regular intervals. (Moisture and dust can lead to fire or electrical shock.)

FAQ

Before requesting service or assistance, please follow these simple guides to resolve the problem.
If the problem still persists, please contact your local Panasonic dealer or Panasonic Service Center for assistance.
For details (p. 52, 53)

White spots or shadow images (noise)

- Check the position, direction, and connection of the antenna.

Interference or frozen digital channels (intermittent sound)

- Change the direction of antenna for digital channels.
- Check "Signal meter" (p. 37). If the signal is weak, check the antenna and consult your local dealer.

The LCD panel moves slightly when it is pushed with a finger. A clattering sound might be heard

This is not a malfunction.

- There is some looseness around the panel to prevent the damage to the panel.

Pictures from external equipment are distorted when the unit is connected via HDMI

- Is the HDMI cable connected properly? (p. 39, 41)
- Turn Off the TV unit and equipment, then turn them On again.
- Check an input signal from the equipment. (p. 46)
- Use equipment compliant with EIA/CEA-861/861B.

When the channel is changed on an STB that is connected with HDMI, "HDMI" may be displayed on the top left of the screen

- This is not a malfunction.

Recording does not start immediately

- Check the settings of the recorder. For details, read the manual of the recorder.

The remote control does not work

- Are the batteries installed correctly? (p. 6)
- Are the batteries new?

If there is a problem with your TV, please refer to the table below to determine the symptoms, then carry out the suggested check. If this does not solve the problem, please contact your local Panasonic dealer, quoting the model number and serial number (both found on the rear of the TV).

	Problem	Actions
Screen	Some spots remain bright or dark	<ul style="list-style-type: none"> ● The LCD panel is made up of a few million pixels and is produced with advanced technology through an intricate process. Sometimes a few pixels may be bright or dark. These pixels do not indicate a defective panel and will have no impact on the performance of the TV.
	Chaotic image, noisy	<ul style="list-style-type: none"> ● Check nearby electrical products. (car or motorcycle ignition systems, fluorescent lamp, etc.)
	No image can be displayed	<ul style="list-style-type: none"> ● Check Picture menu (p. 24) ● Check the cable connections. ● Check that the correct input has been selected.
	Only spots are displayed instead of images	<ul style="list-style-type: none"> ● Check the channel settings. (p. 36) ● Check the antenna cables.
	Neither image nor sound is produced	<ul style="list-style-type: none"> ● Is the power cord plugged into the outlet? ● Is the TV unit turned On? ● Check Picture menu (p. 24) and volume. ● Check the AV cable connections. (p. 8-11) ● Check that the correct input has been selected. (p. 20)
Sound	Black Box appears	<ul style="list-style-type: none"> ● Change settings of Closed caption (CC). (p. 38)
	No sound is produced	<ul style="list-style-type: none"> ● Are the speakers' cables connected correctly? (p. 41) ● Is "Sound Mute" active? (p. 12) ● Is the volume set to the minimum? ● Is "TV speakers" set to "Off"? (p. 24) ● Change "SAP" settings. (p. 15) ● Check "HDMI 1 in", "HDMI 2 in" or "HDMI 3 in" settings. (p. 24)
	Sound is unusual	<ul style="list-style-type: none"> ● Set "SAP" setting to "Stereo" or "Mono". ● Check the HDMI device connected to the unit. ● Set the audio setting of the HDMI device to "Linear PCM". ● If digital sound connection has a problem, select analog sound connection.
	Unknown sound heard 1- Sounds from TV cabinet 2- Tick/Click sound 3- Buzzing sound	<ol style="list-style-type: none"> 1- Changes in the temperature and humidity of the room may cause the TV's cabinet to expand or contract and produce metallic sounds. This is not a sign of faulty operation or a malfunction. 2- When the TV is powered on, an electrical component in the TV activates producing a tick/click sound. This is not a sign of faulty operation or a malfunction. 3- Electrical circuits are active while the TV set is on. This is not a sign of faulty operation or a malfunction.
Other	The main unit is hot.	<ul style="list-style-type: none"> ● The main unit radiates heat and some of the parts may become hot. This is not a problem for performance or quality. Set up in a location with good ventilation. Do not cover the ventilation holes of the TV with a tablecloth, etc., and do not place on top of other equipment.
